## **RFILS-1000**

RADIO FREQUENCY IN-LINE SYSTEM

### The XILS handler series is prepared for the most demanding applications.

Designed to your exact needs for high number of test points, large panels and future expandability.

Wide range of PCB dimensions, high handling speed, fast and easy setup, facilitated product changeover, flexible and adapted to different electronic test technologies, the XILS will be the best choice for your In Line testing needs.

#### **RFILS-1000**

Specially designed for High-Frequency Test applications for sectors as diverse as Automotive, Telecommunications, Medical, Aerospace, Networking and Defense.

Covering wireless needs (Wifi, Bluetooth, Radio, Satellite, LAN, Power Metering, RF Test and others).

Due to the double conveyor system (both @ SMEMA level), this handler can be connected in serial line with other XILS handlers thus avoiding the necessity of creating parallel lines in shop-floor when two or more systems are needed to cover the cycle-time necessities.

- Fast and ergonomic fixture exchange.
- Small footprint other modules may be pressed against both sides.
- Lateral actuation for DUT connectors (USB, Ethernet, etc.) with controlled insertion force.
- Faraday Cage (Built-In-System) and Conveyor (Built-In-Fixture) integrated to achieve perfect sealing.

We encourage the constant exchange of ideas and best practices with our customers and partners. Our projects provide the **best engineering** solutions for specific test needs integrated in our **Offline Handling Systems**.

#### **Tests**

- ISP In System
- RF Spectrum Analysis
- Analysis Functional
- ISP & FCT (Under Requirements)
- Power Metering

#### **Integrations**

- Goepel electronic
- SMH (Flash Runner)
- Keysight
- National Instruments
- Rohde & Schwarz
- Others (Under Requirements)

#### Typical application

Max. PCB size

Min. PCB width

Component top side clearance

Component bottom side clearance

Recommended/Max test points

Handling time (machine cycle)

Fixture exchange time

**Electrical power** 

Pneumatic requirements

**CE** approved
